

Over 1,000 persons are at work on the Central New York Railroad. The whole work when finished will be \$100,000,000. The present earnings are at the rate of 10 per cent and when the terminus is at New Buffalo it is anticipated that the receipts will reach a million per annum. Sales of the stock have been made at \$6 per share.

The Southern Road, ending at Monroe, gives promise of equal profits. Its stockholders as yet have not been assessed anything. The net earnings of the road meet the payments to the State as they become due, which is \$50,000 a year and interest. The profits of the last months have already been paid off and the new freight cars and two new locomotives. It is now estimated it will pay for itself in six years.

The stock of the Detroit & Shelby Railroad has passed hands. It was graded some eight years ago, within three miles of Detroit, and used with horses over wooden rails. Its receipts were some \$15,000 weekly when in operation. The grade is to be repaired, new superstructure placed upon it and ironed for power.
